

COMING FALL 2020

SteeleService 2.0 — More secure and mobile-friendly, plus the 2% discount for online orders

Our new, re-engineered services portal has beefed-up security features and a mobile-friendly design, so authorized personnel can order parts when they need them, securely and easily.

As always, online orders receive a 2% discount.

Easier, 24/7 access to the parts you need to keep production running.

We kept the functionality you like

The new SteeleService site still lets you search for parts specific to your company and the ordering process works the same way. You can also still save your order as a quote for later use.

SteeleService 2.0 - New features for faster, easier orders

We engineered our new services portal for a smoother, more useful ordering experience. A simple navigation pane stays open as you search and order, with technical documents to guide you through the process.

You can also view additional, relevant documentation specific to your log-in.

We've added a traditional checkout cart that lets you choose pre-existing shipping addresses. And our real-time order process lets you use your order number when communicating with Steele customer service.

You'll also receive news about upcoming Steele events and sales here as well as at https://www.jcsteele.com/blog/.
